Originality & Authorship Declaration

Declaration of Independent Engineering Development

Declaration Statement

I hereby declare that this project titled 'AI-Powered AUTOSAR High-Level Design (HLD) Document Analysis Assistant' is an original work designed and implemented for automotive engineering technical evaluation.

All software modules, algorithms, prompt pipelines, consistency checkers, and report generators have been developed in accordance with professional engineering integrity and academic standards.

Any external libraries and open-source frameworks utilized (PyMuPDF, ChromaDB, Sentence-Transformers, Streamlit, Ollama, NetworkX, Plotly, Pandas, ReportLab) have been duly attributed.
